Technical Skills

Languages: Java, JavaScript, SQL
Frontend: HTML, CSS, Tailwind CSS, React JS,
Backend: Node JS, Express JS
Databases: MongoDB, MySQL
Developer Tools: VS Code, Git/Github,

Education

Chandigarh University, Mohali CGPA 7.6/10.0
B.E in Computer Science and Engineering 2021 - 2025
• **Coursework:** Data Structures and Algorithms, Computer Networks, DBMS, Object Oriented Programming

Experience

Web Developer Intern, InnoByte Services –Remote June 2025 – Aug 2025
• Designed and developed a responsive website using React.js, Tailwind CSS, and GSAP animations to improve UI/UX across all devices.
• Utilized React Hooks (useState, useEffect) for efficient state management and component lifecycle handling.
• Implemented React Router DOM for smooth client-side routing and navigation between multiple pages.

Projects

AI Learning Assistant Platform Link
• Full-Stack AI Learning Assistant App using the MERN stack, This app transforms PDFs into interactive study experiences with AI chat, auto-generated flashcards, quizzes, summaries, and progress tracking all in one place.
• Functionalities Implemented: User Authentication – Secure login and signup with JWT, PDF Upload and Management, Embedded PDF Viewer, AI Concept Explainer, Auto-Generated Flashcards, AI Quiz Generator, Quiz Results and Analytics, Progress Tracking Dashboard,
• **Tools Used:** MongoDB, Express, React, Node.js, styled with Tailwind CSS, and powered by Google Gemini AI.

CodeGyan E-learning Platform Link
• Designed and developed a full-stack e-learning platform with over 30+ interactive coding tutorials, 50+ challenges, and multi-role support for Admin, Instructor, and Student.
• Integrated Nodemailer to send OTPs for email-based authentication, improving platform security and user trust by 35%.
• Implemented JWT/OAuth authentication and Role-Based Access Control (RBAC), securing user data and access to sensitive operations.
• **Tools Used:** React.js, Node.js, Express.js, MongoDB.

URL Shortener Web App Link
• Developed a full-stack URL shortener application that converts long URLs into short, shareable links.
• Implemented RESTful API endpoints to handle creation, redirection, and analytics of short URLs.
• Integrated server-side rendering with EJS to display homepage, form submissions, and link statistics dynamically.
• **Tools Used:** Node.js, Express.js, MongoDB, RESTful APIs

Achievements/Certification

• Solved 300+ DSA problem in various platforms like leetcode, gfg etc. Link
• Project Expo'24: Selected out of over 150+ teams for representing CSE 3rd year, gaining valuable learning insights and practical experience.
